Approved.

### **3. General information about ETTTC and related events**

Giorgio Di Natale reported on DATE 2020 and especially about statistics of accesses to virtual platform. Comments: missing report about technical interactions (chat, forum, etc) and social interactions.

Ilia Polian reported on DATE T Track

Reorganized topics:

DT6 has been splitter in two DT4 and DT6  
T3 and T4 have been merged into a T3 “Dependability and system level test

Classical topics T1 and T2 has a slight reduction in the submissions w.r.t previous year. Nothing critical but enough to trigger a warning.

new T3 got more submission that past T4 and T3 -> (20 to 30)

DT4, DT5 and DT6 got the usual high number. Not clear/available the information about the number of papers really targeting test.

comments: maintain these topics and monitor the submission over a longer period.

Ioana and George reported on ETS and TSS

- Good Number of submissions:89
- it will be a fully live event
- presentation will be available after the conference
- TSS presentation will be also available for ETS participants

Milos reported about DDECS

- Submission not closed yet -> do not be shine and submit
